Hail librarian, I have but only one concern for this tome you are peddling to the masses that I am very much interested in.

Can I play a kobold?

For you, I will make it possible. :)

Kobold

Tiny, humanoid dog-lizards with a penchant for tinkering, trap building, and a hint of magic.

You know the Common and Draconic languages.

Knack. You get +1 to spellcasting checks or may begin each session with a luck token.
